A C Celerating Learning for All

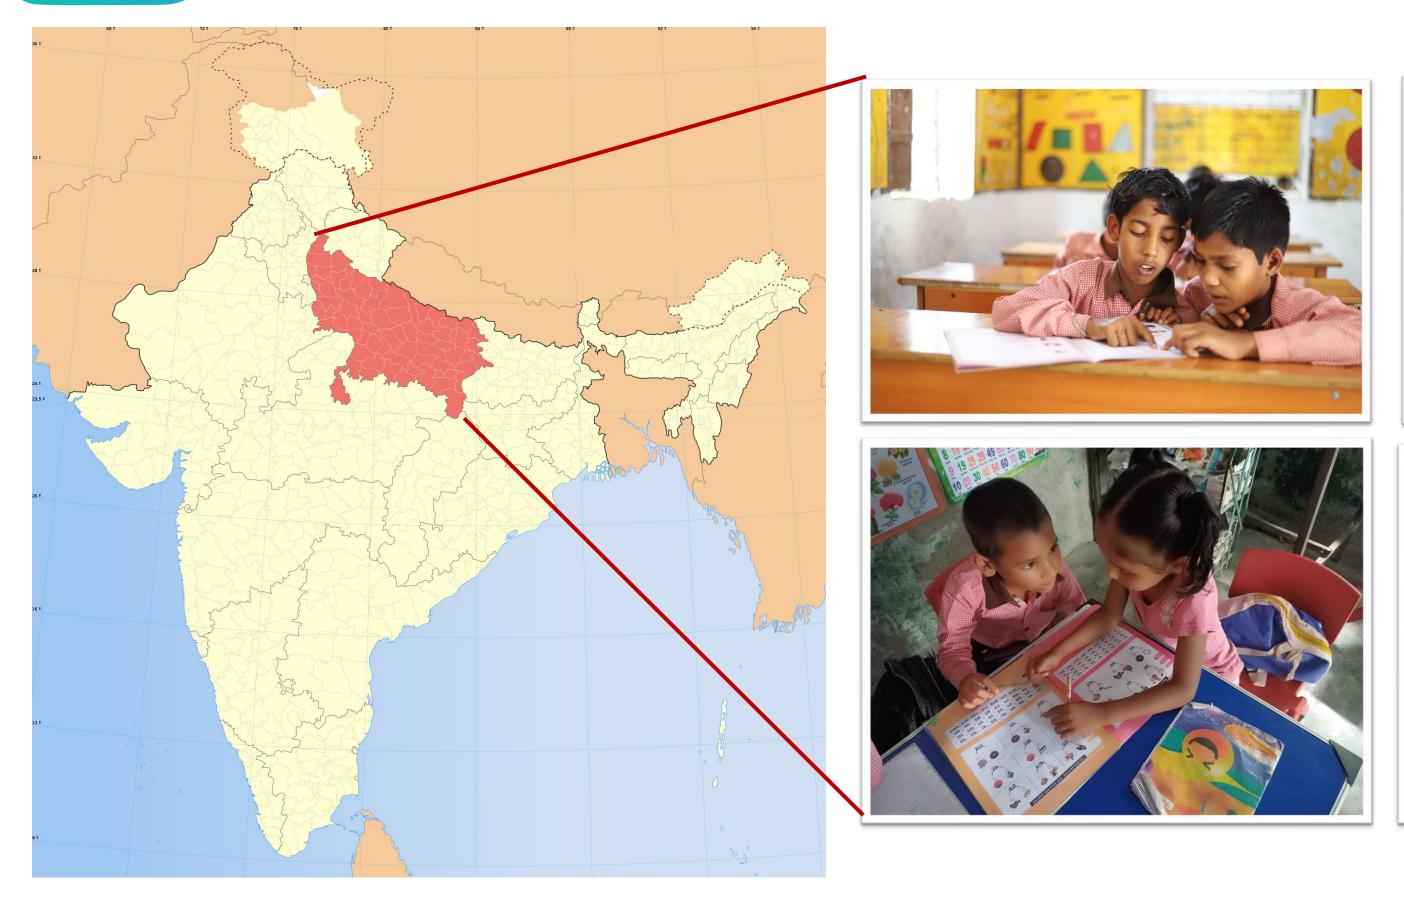

#### **RESEARCH DESIGN**

Accelerating Learning for All implementations are conducted using a rigorous research design:

- Schools are randomly allocated to implementation and reference groups.
- A standardized baseline test is conducted in all schools.
- Teachers in implementation schools are trained and provided with ALfA materials.
- The ALfA program is implemented, typically for 45 days.
- An endline test, which is scientifically similar to the baseline, is conducted; and the results analysed.

Pre Test Marks (in%)

Post Test Marks (in%)

**FINDINGS** 

The greater the proportion of schools in a region implementing ALfA, the greater the NAT result.

**Proportion of Schools Implementing ALfA in 2022-23** 

100%

### **IMPACT HILAULI BLOCK**

- Entire 155 schools of Hilauli Block  $\triangleright$ implemented ALfA since Sept 23.
- Formerly an aspirational block, it came Rank 1 of 17 blocks of **Unnao** in the NAT.
- 47% of schools were found to be  $\triangleright$ NIPUN, c.f. 15% for Unnao as a whole.

#### **IMPACT HILAULI BLOCK**

**6** am delighted to inform you that the ALfA pedagogy has been implemented in the 155 schools of Hilauli block since September 2023. There has been a substantial improvement in children's learning levels, in very little time. In the assessments conducted by the Department of Education, Hilauli, which was at the lowest level, has now come first in Unnao district. The ALfA pedagogy has helped Hilauli become NIPUN; for this I praise and recommend your work. I hope that you continue assisting in the educational 99 field going forwards. Sangeeta Singh, Unnao BSA

#### **ENDORSEMENT FROM OUR INTERVENTION IN KENYA**

During the literacy and numeracy initiative, we observed that students exposed to this pedagogy at devi sansthan consistently demonstrate increased enthusiasm for learning, improved academic performance, and enhanced problem-solving skills. The positive outcomes reflect not only in academic achievements but also in The development of essential life skills that prepare students for future challenges.

#### **ENDORSEMENT FROM OUR INTERVENTION IN USA**

Dr. Gandhi, I admire your enthusiasm and passion for educating children. I want you to know you are making A huge difference in children's lives, and I am glad to see that at our school. I am forever grateful for the opportunity you gave Kepler. My daughter has accelerated in her test scores. Her reading ability is getting better each day, and in 4th grade, we have so many kids who couldn't write or read. I am all for this, and we will be taking to our board for approval in June.

#### **ENDORSEMENT FROM HARVARD UNIVERSITY**

6

The effect size\* of the project was **0.23 for Grade 3** students and **0.89 for Grade 5**... the results suggest there is significant value in pursuing the ALFA model in other schools if implemented in a coherent, structured, and coordinated manner. Students in the intervention groups had **much higher oral reading fluency** than those in the reference group. For Grades 4–5, 50% of the intervention group students were able to read the passage at >90 words per minute compared to 20% of reference group students.

\*Effect size is a statistical measure of an intervention's impact. A business-asusual school year in developing countries typically raises literacy levels by 0.15 to 0.21 standard deviations. This means that the ALfA 45-day intervention raised learning levels by the equivalent of 2-4 years worth of school.
